PROFESSIONAL PROFILE

A dedicated, enthusiastic and detail-oriented Computer Science graduate with a Higher National Diploma (HND) in Computer Science from Delta State Polytechnic, Otefe-Oghara, Delta State, graduating with a Second Class Upper Division in 2024. Possesses practical knowledge and experience in programming, web development, computer applications and general IT operations. Skilled in PHP, Laravel, MySQL, JavaScript, HTML5, CSS3 and Bootstrap, with the ability to design and develop responsive websites, web applications, dashboards and management systems. Also knowledgeable in computer packages, document preparation, spreadsheet operations, presentation design, internet usage and general computer operations. A quick learner with good communication, analytical and problem-solving skills, committed to continuous learning and professional growth. Currently undertaking the National Youth Service Corps (NYSC) programme.

CAREER OBJECTIVE

To obtain a challenging position in a reputable organisation where I can apply my knowledge of computer science, programming, web development and computer applications to contribute meaningfully to organisational growth, solve technical problems and develop professionally.

EDUCATIONAL BACKGROUND

Higher National Diploma (HND) – Computer Science
Delta State Polytechnic, Otefe-Oghara, Delta State, Nigeria.
Completion Year: 2024 | **Class of Degree:** Second Class Upper Division

Ordinary National Diploma (OND) – Computer Science
Delta State Polytechnic, Otefe-Oghara, Delta State, Nigeria.
Completion Year: 2021

PROGRAMMING AND SOFTWARE DEVELOPMENT EXPERIENCE

Practical experience in programming and web development through personal, academic and practical software development projects.

- Developing responsive and user-friendly websites using HTML5, CSS3, JavaScript and Bootstrap.
- Building server-side web applications using PHP and Laravel.
- Creating and managing databases using MySQL.
- Designing interactive website interfaces and application dashboards.
- Developing portal and management system interfaces.
- Using Git and GitHub for source code management and project development.
- Identifying, debugging and resolving programming errors.
- Applying problem-solving skills to develop functional software solutions.
- Understanding website structure, application logic and database operations.

COMPUTER PACKAGES AND APPLICATIONS

- **Microsoft Word:** Document creation, formatting, editing and preparation of professional reports and letters.
- **Microsoft Excel:** Spreadsheet creation, data entry, formatting, basic calculations and data organisation.
- **Microsoft PowerPoint:** Presentation design and preparation of slides for meetings and presentations.
- **Microsoft Access:** Basic database organisation and management, where applicable.
- **General Computer Operations:** Computer usage, file management, data entry, printing and document handling.
- **Internet and Email:** Internet research, browsing, online communication and email management.

TECHNICAL SKILLS

Programming Languages: PHP, JavaScript

Front-End Development: HTML5, CSS3, Bootstrap

Back-End Development: PHP, Laravel

Database Management: MySQL

Version Control: Git, GitHub

Other Technical Competencies: Responsive Web Design, User Interface Development, Website Maintenance, Debugging and Troubleshooting, Database Operations, Software Development

TECHNICAL PROJECTS

1. Business Website

Designed and developed a business website interface for presenting company information, services and establishing a professional online presence.

2. Student Portal

Developed a student portal interface for organising student information and providing access to academic-related features and services.

3. Banking Dashboard

Created a banking dashboard interface for presenting account information and financial activities in an organised and user-friendly manner.

4. Hospital Management System

Worked on a hospital management system interface designed to organise healthcare and administrative information.

5. E-commerce Website

Developed an online shopping website interface for displaying products and providing a user-friendly shopping experience.

NATIONAL SERVICE

National Youth Service Corps (NYSC)
Currently undertaking the mandatory National Youth Service Corps programme in Nigeria.

PERSONAL SKILLS AND COMPETENCIES

- Strong analytical and problem-solving abilities.
- Good communication and interpersonal skills.
- Ability to work independently and collaboratively.
- Good time management and organisational skills.
- Creativity and attention to detail.
- Ability to learn new technologies and adapt to new working environments.
- Willingness to accept responsibilities and learn from others.
- Good understanding of computer operations and technology.
- Commitment to quality, productivity and continuous improvement.

AREAS OF INTEREST

- Software and Web Application Development.
- Programming and Technology Innovation.
- Computer Operations and IT Support.
- Database Management.
- Information Technology and Digital Solutions.
- Continuous Learning and Professional Development.
